Scenario

For Asset Insurance System scenario, we will need to build a new form to capture the premium payment information. This form will be called from a newly added button designed in the AssetTable form.

Also, there will be requirement to add new fields in existing forms as follows

VendParameters: A vendor group parameter field is added in the Vendor Parameter form

VendTable: Insurance Calculation Type field is added in the VendTable form

AssetTable: Premium Cycle field is added in the AssetTable form

Practice: Create Form – aisInsurancePremium

1. In the Solution Explorer, Right-click on Asset Insurance System project and choose Add > New item
2. Under Operations artifacts select User Interface.
3. Select Form.
4. Type "aisInsurancePremium" in the Name box and click Add.
5. In the Solution Explorer, on the Asset Insurance System project, find the aisInsurancePremium form, click open
6. Expand the Data Sources
7. Drag and drop aisInsurancePayment table to the Data Source of the form.
8. Right click Datasource > aisInsurancePayment > Property
9. Set Allow Create property to No
10. Right click Design > Apply Pattern > Simple List
11. Right click Design > New > Action Pane
12. Right click Design > New > Group
13. Right click Design > New > Grid
14. Right click Design > FormGroupControl1 > Apply Pattern > Custom And Quick Filters
15. Right click Design > FormGroupControl1 > New > QuickFilter
16. Right click Design > FormGroupControl1 > QuickFilterControl1 > Property
17. Set Target Control property to FormGridControl1
18. Drag the following fields (in order) from Datasource > aisInsurancePayment > Fields to the FormGridControl1
    a. FiscalYear
    b. SerialNum
    c. PremiumAmount
    d. DueDate
    e. PaymentDate

19. Save
20. In the Solution Explorer, right click the Project ‘Asset Insurance System’
21. Build the Project (or use Ctrl+Shift+B)
22. Review the Output screen to review process
23. Set aisInsurancePremium as the Start up object
24. Click Start
25. View new built form
26. Close

Practice: Extend Form – VendParameters

1. Click on View from the Visual Studio Menu bar
2. Select Application Explorer
3. In the Form Node, Select VendParameters
4. Right click on VendParameters and click on Create Extension.
5. Open VendParameters.Extension under Form Extensions folder of Solution Explorer
6. Drag Datasource > VendParameters > Field Groups > aisAssetInsurance and drop it under Design > Tab (tab) > TabGeneral (tab page) > GeneralTab (tab) > VendorTabpage (tab page)
7. In the Solution Explorer, right click the Project ‘Asset Insurance System’
8. Build the Project (or use Ctrl+Shift+B)
9. Review the Output screen to review process

Practice: Extend Form – VendTable

1. Click on View from the Visual Studio Menu bar
2. Select Application Explorer
3. In the Form Node, Select VendTable
4. Right click on VendTable and click on Create Extension.
5. Open VendTable.Extension under Form Extensions folder of Solution Explorer
6. Drag Datasource > VendTable > Field Groups > aisAssetInsurance and drop it under Design > MainTab (tab) > TabPageDetails (tab page) > Tab (tab) > TabDetails (tab page)
7. In the Solution Explorer, right click the Project ‘Asset Insurance System’
8. Build the Project (or use Ctrl+Shift+B)
9. Review the Output screen to review process

Practice: Extend Form – AssetTable

1. Click on View from the Visual Studio Menu bar
2. Select Application Explorer

3. In the Form Node, Select AssetTable
4. Right click on AssetTable and click on Create Extension.
5. Open AssetTable.Extension under Form Extensions folder of Solution Explorer
6. Create a new button group “aisInsurance” under Design > ActionPane > FixedAsset (ActionPane tab)
7. Label: Fixed Asset Insurance
8. In the Solution Explorer, right click the Project ‘Asset Insurance System’
9. Build the Project (or use Ctrl+Shift+B)
10. Review the Output screen to review process

Practice: Create Form – aisPremiumPaidFactBox

1. In the Solution Explorer, Right-click on Asset Insurance System project and choose Add > New item
2. Under Operations artifacts select User Interface.
3. Select Form.
4. Type “aisPremiumPaidFactBox” in the Name box and click Add.
5. In the Solution Explorer, on the Asset Insurance System project, find the aisPremiumPaidFactBox form, click open
6. Drag aisInsurancePayment table in the datasource
7. Specify following property values
    a. Allow Create = No
    b. Allow Edit = No
    c. Allow Delete = No
8. Select Design > Pattern as Form part Factbox Grid
9. Add a Grid under Design
10. Add following fields from the datasource aisInsurancePayment and drop them on the grid
    a. FiscalYear
    b. SerialNum
    c. PremiumAmount
    d. PaymentDate
11. In the Solution Explorer, right click the Project ‘Asset Insurance System’
12. Build the Project (or use Ctrl+Shift+B)
13. Review the Output screen to review process

Practice: Create Form – aisAssetInsuranceWorkspace

1. In the Solution Explorer, Right-click on Asset Insurance System project and choose Add > New item
2. Under Operations artifacts select User Interface.
