Prerequisites

1. To complete this lab you will be using the VM provided to you.
    a. Login: builtin\AXLocalAdmin
    b. Password: <Available in LCS>
2. Open Visual Studio as administrator
    a. Right Click Visual Studio icon, Run as administrator
3. Exercises
    a. Model Creation & project Creation
    b. Label File Creation
    c. Base Enumeration Creation
    d. Extended Data Type Creation

Scenario

For asset insurance management scenario, we will create a Tile Button on the Workspace to show total premium amount

Practice: Create Aggregate Dimension: aisAssetDimension

1. In the solution Explorer, right click the AssetInsuranceSystem Project
2. Click Add > New Item
3. In the Operations Artifacts, Choose Analytics
4. Click Aggregate Dimension and Set the Name: aisAssetDimension
5. Click Add
6. Set Table property as AssetTable
7. Set Label property as Fixed Asset
8. Add the following attributes
    i. AISAssetDimension (Name Field: AssetID)
        - DateAreaID
        - AssetID
    ii. AssetGroup (Name Field: AssetGroup)
        - AssetGroup
    iii. Location (Name Field: Location)
        - Location
    iv. AssetType (Name Field: AssetType)
        - AssetType
    v. AssetRecId (Name Field: RecID)
        - RecID
9. In the Solution Explorer, right click the Solution 'AssetInsuranceSystem'
10. Click Build Solution (or use Ctrl+Shift+B)

Practice: Create Aggregate Measurement: aisInsurancePremiumMeasure

1. In the solution Explorer, right click the AssetInsuranceSystem Project
2. Click Add > New Item
3. In the Operations Artifacts, Choose Analytics
4. Click Aggregate Measurement and Set the Name: AISInsurancePremiumMeasure

5. Click Add
6. Select Insurance Premium as Label
7. Right click and create a new Measure Group
8. Select AISInsurancePayment as Table and Label properties of the Measure Group
9. Under the Measure node, add a new measure with following properties values
    i. Name: PremiumAmount
    ii. Label: Total Premium
    iii. Field: PremiumAmount
    iv. Default Aggregate: Sum
10. Drag AISAssetDimension under Dimension node
11. In the Company node under Dimension, set the following Dimension Relation Constraint
    BICompanyView.id == AIPInsurancePayment.DataAreaId
12. In the Date_ node under Dimension, set the following Dimension Relation Constraint
    BIDateDimensionValue.Date == AIPInsurancePayment.PaymentDate
13. In the AIPAssetDimension node under Dimension, set the following Dimension Relation Constraint
    AssetTable.RecId == AIPInsurancePayment.AssetRecId
14. In the Solution Explorer, right click the Solution 'AssetInsuranceSystem'
15. Click Build Solution (or use Ctrl+Shift+B)

Practice: Create KPI: aisTotalPremium

1. In the solution Explorer, right click the AssetInsuranceSystem Project
2. Click Add > New Item
3. In the Operations Artifacts, Choose Analytics
4. Click KPI and Set the Name: AISTotalPremium
5. Click Add
6. Set the value of the measurement property as AISInsurancePremiumMeasure
7. Set following properties of Goal
    i. Goal Type: BasedOnValue
    ii. Value: 100
8. Set following properties of Value
    i. Measure Group: AISInsurancePayment
    ii. Measure: PremiumAmount
9. In the Solution Explorer, right click the Solution 'AssetInsuranceSystem'
10. Click Build Solution (or use Ctrl+Shift+B)

Practice: Create Tile: aisTotalPremium

1. In the solution Explorer, right click the AssetInsuranceSystem Project
2. Click Add > New Item

3. In the Operations Artifacts, Choose User Interface
4. Click Tile and Set the Name: AISTotalPremium
5. Click Add
6. Set the value of the Type property as KPI
7. Set the value of the KPI property as AISTotalPremium
8. Set the value of Label as “Total Premium”
9. In the Solution Explorer, right click the Solution ‘AssetInsuranceSystem’
10. Click Build Solution (or use Ctrl+Shift+B)

Practice: Adding tile to Workspace

1. In the solution Explorer, find AISAssetInsuranceWorkspace from the AssetInsuranceSystem Project
2. Go to Design -> Panorama -> Section Tiles (Tabpage)
3. Add a new tile button with following properties
    i. Name: TileTotalPremium
    ii. Tile: AISTotalPremium
    iii. Tile Display: Auto
4. In the Solution Explorer, right click the Solution ‘AssetInsuranceSystem’
5. Click Build Solution (or use Ctrl+Shift+B)
